## TECHNICAL CERTIFICATE

Type	Marble, Wood & 3D	Material	PVC, UV Coating
Density	2.0g/cm <sup>3</sup>	UV Resistant	10 μm
Strength	176MPA	Formaldehyde	0.05mg/KG
Vicat softening temperature	207°C	Variation rate of heating size	1.2%
Ball indentation hardness	78.18 N/cm <sup>2</sup>	Tensile elongation yield	16.1%

### APPLICATION:

PVC Sheets are widely used in the decoration genre of home and corporate interiors. It is used for wall & ceiling cladding at places such as restaurants, hotels, hospitals, airports, metro stations, supermarkets, bars, cafes, offices, living rooms, toilets even cupboards & so on.

### TECHNOLOGY: GERMAN

Environment Protection,  
Saves 100% on the usage of wood which is a natural resource, therefore  
LUXE products support a global cause.

It is :

Termite Proof  
Moisture proof  
Water Proof  
Sound Proof  
Anti Corrosion  
Fire Retardant

Easy to Install : Common contact adhesive or putty glue can be used to fix/clad.

Common machine tools can be used to cut e.g. saw Panel.

No maintenance of polishing etc. is required as the material does not absorb liquid, can be cleaned with cloth and water
